BIO

Sharp Eyes, the five-piece pop-punk/pop-rock sensation from Essex, UK, are here to bring you a dose of pure pop punk energy. Drawing inspiration from bands like All Time Low, The Maine, The Story So Far, and Neck Deep they've crafted a sound that's all about massive hooks and irresistible riffs. In 2021, Sharp Eyes burst onto the scene with their debut EP, earning themselves national airplay on BBC Radio 1, including the single 'Everything's in Motion'. Their high-octane live shows have garnered them a growing fanbase, infusing modern pop-rock with a fresh, high-energy edge.

2024 has seen the release of even more singles from the band, including the instant ear worm 'Back To Back' and a 'punk goes pop' style cover of cult hit 'Foundations' originally by Kate Nash.
